Mikey Ward is an informatics nurse and innovation pioneer who is transforming healthcare through technology. Her work has touched the lives of countless patients and healthcare professionals, and she continues to be a leading voice in the field of digital health.

### **Early Life and Career**

Ward was born and raised in San Diego, California. She earned her Bachelor of Science in Nursing from San Diego State University and worked as a registered nurse in various settings, including the emergency department and intensive care unit.

In 2008, Ward began working as an informatics nurse at Scripps Health, a large healthcare system in San Diego. In this role, she was responsible for implementing and managing new technologies to improve patient care.

## **Informatics Nursing**

Informatics nursing is a specialized field of nursing that focuses on the use of technology to improve patient care. Informatics nurses work with healthcare professionals to design, implement, and evaluate new technologies. They also play a role in educating patients and families about the use of technology in healthcare.

Ward is a certified informatics nurse and has been a leader in the field for over a decade. She is a member of the American Nursing Informatics Association and the Healthcare Information and Management Systems Society.

## **Innovation Pioneer**

Ward is not only an informatics nurse, but also an innovation pioneer. She is constantly looking for new ways to use technology to improve healthcare.

One of Ward's most notable accomplishments is the development of the Ward Way, a nursing workflow improvement method that uses technology to streamline patient care. The Ward Way has been adopted by hospitals and healthcare systems across the country.

Ward is also a co-founder of the Center for Connected Health, a non-profit organization that promotes the use of technology to improve healthcare. The Center for Connected Health provides education, training, and resources to healthcare professionals who are interested in using technology to improve patient care.

## **Impact on Healthcare**

Ward's work has had a significant impact on healthcare. She has helped to improve patient care, reduce costs, and increase efficiency.

Here are a few examples of Ward's impact:

\* The Ward Way has been shown to reduce patient wait times, improve communication between patients and providers, and increase patient satisfaction. \* Ward's work on e-prescribing has helped to reduce medication errors and improve medication adherence. \* Ward's research on the use of mobile technology in healthcare has shown that mobile devices can be used to improve patient engagement and outcomes.

## **Awards and Recognition**

Ward has received numerous awards and recognition for her work in informatics nursing and innovation. Some of her awards include:

\* The American Nursing Informatics Association Innovator of the Year Award \* The Healthcare Information and Management Systems Society Nursing Informatics Leadership Award \* The Center for Connected Health Leadership Award

Mikey Ward is an informatics nurse and innovation pioneer who is transforming healthcare through technology. Her work has touched the lives of countless patients and healthcare professionals, and she continues to be a leading voice in the field of digital health.

As technology continues to play an increasingly important role in healthcare, informatics nurses like Mikey Ward will be essential to ensuring that patients receive the best possible care.
